

GEOSummit Meeting 2014

introductions and welcome

NASA Goddard · January 31, 2014

Facilitators:

John Burkhart, UC Merced / UiO, Science Coordination Office

Zoe Courville, CRREL, Science Coordination Office

Jack Dibb, UNH, Science Coordination Office

Bob Hawley, Dartmouth, Science Coordination Office

Katrine Gorham, Polar Field Services

Internet: Use the “Guest-CNE” network.

Presentations: If you haven’t done so already, give Katrine your presentation slides at the next break.

Food: There will be snacks and coffee at the mid-morning and mid-afternoon breaks. Lunch is provided. If you need additional nourishment, there is a cafeteria in the building open until 3PM.

We have a busy agenda, so please make every effort to keep your presentation to the allotted time!

Attendees:

NSF, NOAA, past / current / future research community stakeholders, CPS (logistics provider).

Meeting objectives:

Open dialogue regarding scientific results and future research directions on the ice sheet; including traverse science, research at Summit, and activities at the new Isi Station. Communication between the funding agencies, science stakeholders, and logistics personnel on how to improve and optimize research potential on the Greenland Ice Sheet.
